

# MAGMA GROOVE TERMINAL

## Laptop-Stand Installation

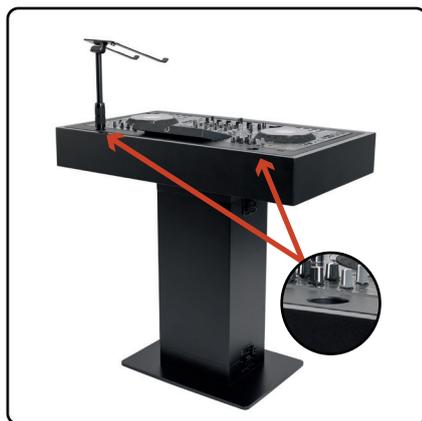

The Groove Terminal Laptop-Stand includes a pre-assembled base plate. This allows the stand to be used independently without the Groove Terminal.

When using the stand with the Groove Terminal, remove the base plate from the stand.

Adjust the stand to the desired height and securely tighten the rubberized locking knob.

Attach the stand to one of the designated mounting points on the Groove Terminal and tighten it securely.

The stand features a 3/8" thread and can also be mounted on any standard microphone stand or photo tripod with a 3/8" screw.
